

Circular 364: Material Quality Checklist

Date: September 24, 2020

Dear Customer,

As part of the ongoing efforts towards ensuring material quality, it is of utmost importance to undertake and comply with unified Material Quality requirements at construction project sites.

Consultants shall ensure to comply with the requirements of the unified Material Quality Checklist issued by the Dubai Building Permit Development Committee and maintain the completed checklist along with associated records in the [compliance folder](#) for verification. Records include and are not limited to:

- Material receipts
- Material sample approvals
- Certificates of compliance
- Delivery notes etc.

The Unified Material Quality Checklist can be accessed by simply clicking [here](#).

If you have any questions or wish to give feedback, please call Customer Care on tel: 800-4-DDA (332) or via [Connect With Us](#).

Regards,

Dubai Development Authority
