Circular 307: DCCA to Dubai Development Authority

Date: January 6, 2019

Dear Business Partner,

In response to a government mandate, we are pleased to announce that from today onwards, Dubai Creative Clusters Authority (DCCA) will be known as Dubai Development Authority.

Dubai Development Authority has a strong track record of serving TECOM Group's business partners with registration, licensing, and other business documentation. We will continue to provide these services, without any changes.

As part of our continual drive to digitise processes, all the smart solutions you already enjoy through TECOM Group's service platform, axs, will remain the same. There will be no changes apart from updating our name and identity on all newly issued documents.

All existing documentation (i.e: your license and other business registration documents, visas, employee IDs) will NOT need to change and will remain valid under the previous name. No need to do anything in this regard. The name change (Dubai Development Authority) will be implemented at the next renewal.

For more information, you may visit our new website at dda.gov.ae.

For any service-related enquiries, our new customer service number is 800-4-DDA (332).

Yours faithfully,

Ali BuRuhaima
Deputy Director General
