

DELEGATION OF AUTHORITY

This is to delegate a Master User in the company to have a full access rights in Dubai Development Authority's Planning & Building eServices. The Master User can request for all applicable services based on the company's activities, pay for the requests online and receive all the approvals/permits/drawings and other communication from the Authority. The Master User is the single user in the company who can administer all the assignments to the sub-users with limited or unlimited access to the eServices, and responsible for updating the company details whenever any change happens.
